NATURAL FEED SUPPLEMENTS

ID PHYT CAPCIN

A unique product from a special variety of Chili (*Capsicum*), cultivated in controlled and distinctive conditions to boost the production of active ingredients.

The pungent components of Chili (called capsaicinoids) are the active ingredients which help the animals to **avoid inflammation & oxidative stress**, in order to support **animal health and performance** and to **reduce the use of antibiotics**.

ID PHYT CAPCIN is **a 100% natural product**, produced without the use of polluting solvents.

BENEFITS

- ✓ Supports feed intake
- ✓ Improves feed efficiency
- ✓ Less use of antibiotics
- ✓ Higher survival rates
- ✓ Good return on investment
